ABOUT HAMILTON12

Established in 2017, Hamilton12 designs systematic, evidence-based investment strategies to offer cost-effective, positive risk-adjusted returns. Prioritising fee minimisation, tax efficiency, and surpassing benchmarks, the firm employs research-driven methods aligned with investors' needs. Hamilton12 emphasises a disciplined, rule-based approach over speculative methods, removing emotional biases for rational investment decisions. This strategy is rooted in the principles of modern finance, ensuring consistency and reliability in investing.

INVESTMENT STRATEGY AND OBJECTIVE

The Fund invests in ASX listed shares and adopts the same evidence-based, systematic investment strategy as the S&P Dow Jones Indices calculated [Hamilton12 Australian Diversified Yield Index](#) (H12ADYI). The portfolio aims to generate long-term after-tax returns in excess of the Benchmark after fees, including an annual gross dividend yield that exceeds the gross dividend yield of the Benchmark.

MONTHLY COMMENTARY

Fund returns were below the S&P/ASX 200 over the month. The relative performance was primarily due to the fund's investments in the Energy and Real Estate sectors. Within the Energy sector, the fund's overweight position in comparatively high yield coal stocks and underweight position in comparatively low yield oil & gas stocks was a drag on performance. Within Real Estate, underperformance was due to the overweight position in REA (down 4%) and underweight position in Goodman Group (up 13%). The fund generally excludes most real estate investment trusts (REITs) because they do not align with our investment strategy of seeking tax-advantaged income.

OVERVIEW

Fund Benchmark	S&P/ASX 200 Franking Credit Adjusted Daily (Superannuation)
Fund Inception Date	8 September 2022

■ Cash ■ Franking

FEES AND COSTS

Management Fee	0.60% p.a., exclusive GST
Buy/Sell Spread	+/- 0.20%
Performance Fee	15%, exclusive of GST, of the amount by which the after-tax returns of the Fund exceed the returns of the Benchmark on a quarterly basis.

Notes:

- The franking percentage indicates the proportion of franking credits received from dividends since the fund's launch.
- Next distribution date for payment or reinvestment is subject to change.
- Performance figures include franking credits, are calculated after fees have been deducted and assume dividends have been reinvested. Taxes on capital gains are not accounted for in the computation of after-tax returns. Since inception, assuming first investment on 9 September 2022 for the H12 Australian Shares Income Fund and 8 September 2000 for the H12ADYI and the S&P/ASX200. Returns greater than 1 year are annualised returns.
- After-Tax Dividend Yield is dividend yield plus net tax benefit using the trailing 12 months of net dividends for securities held by the trust at the end of the period after fees.
